Ye error `unknown tool github/issue_read` aik **current bug** hy jo GitHub Copilot Chat ke latest updates (khaas tor par March 2026 ke releases aur VS Code Insiders) mein dekha ja raha hy. GitHub +1

Is error ki wajah aur hal ye hain:

Error ki Wajah

Copilot Chat ke naye built-in agents (jaise `@ask`, `@explore`, aur `@plan`) abhi aik aisy tool (`github/issue_read`) ko reference kar rahy hain jo shayad abhi tak fully register nahi hua ya jis ka naam change ho gaya hy. Isi liye VS Code ke **Problems** panel mein ye "Unknown tool" ka warning show karta hy. GitHub +2

Aap kya kar sakty hain?

Chunky ye aik development-side issue hy, aap neechay diye gaye steps try kar sakty hain:

- **VS Code aur Extensions Update Karein:** Microsoft ne is issue ko acknowledge kar liya hy aur iska fix agly choty update mein shamil ho ga. Check karein ke aap ka VS Code aur "GitHub Copilot Chat" extension latest version par hain.
- **Warning ko Ignore Karein:** Agar aap ka Copilot baqi kaam sahi kar raha hy, to aap is warning ko ignore kar sakty hain. Ye sirf aik validation error hy jo Copilot ki core functionality ko block nahi karta.

- **File Menu:** `File` > `Exit` (Windows) ya `Code` > `Quit` (Mac) par click karein.
- Phir dobara VS Code icon se application start karein. Stack Overflow +1

3. Keyboard Shortcut (Custom)

By default reload ka koi direct shortcut nahi hota, lekin aap khud set kar sakty hain:

1. Command Palette mein **"Preferences: Open Keyboard Shortcuts"** type kar ke kholein.
2. **"Reload Window"** search karein.
3. Plus (+) icon par click kar ke apni pasand ka shortcut (maslan `Ctrl` + `F5`) assign kar dein. Stack Overflow +3

Tip: Agar sirf terminal ya kisi specific language server (jaise Python ya TypeScript) mein masla hy, to aap Command Palette mein **"Restart Extension Host"** ya **"Restart Language Server"** bhi use kar sakty hain. Stack Overflow +1

Kya aap kisi **specific error** ki wajah se restart karna chahty hain?
